

Problem of Ground Water in Vaishali District : A Geographical Study

Md. Jamshed Alam

Vaishali district constitutes a part of Ganga river basin. It has two sub basins, namely Gandak Sub-basin and BurhiGandak, sub-basin. The major part of the district falls under BurhiGandak Sub-basin. The Gandak is the main river flowing in the southeasterly direction and forming western boundary of the district.

Main objectives of this study are, to study about the problems of Ground water, to study of scenario of ground water, to study of arsenic and its affects and to solve the problems of contaminated ground water.
