

Heat Stroke (Loo) - A Geoenvironmental Crisis In Rajasthan

Dr. Sandeep Jangir

Dr. Mukesh Kumar Sharma

Solar Heat is a pre-dominant as well as significant component of geo-environmental conditions for existence of any sort of life form at Regional or global level and individual or society level. The area under study i.e. Rajasthan state is located in the north-west direction of our country. From geographical extension point of view the state lies from 23⁰3' to 30⁰ 12' north latitude and from 69⁰ 30' to 78⁰ 17' east longitude. The State has different kinds of topographical features, physical conditions and types of climate, respectively.
