

Availability of Teacher for Better Education

Praveen Kumar Singh

What is the purpose of Education? As Swami Vivekananda says, "Is it book learning? No. Is it diverse knowledge, No, not even that. Education is that by which character is formed, strength of mind is increased, the intellect is expanded and by which one can stand on one's own feet." I will start with the problem of our current education system. The biggest problem is that it does not motivate our children. Millions of students do not know any rationale of going to school, except obligation. Today education fails to retain the knowledge, once students have completed their examinations. This lead to young minds being stifled and stunted at an age when they should be asking questions, learning and gaining knowledge, and developing a thirst for more knowledge.
